

This pattern will teach the techniques for continuous wrapped bands and sequential layering to create a woven effect as well as practice dividing into sixths.

The supplies needed for this project are:

- 3" ball wrapped with thread (bring your own or buy one from Robin for \$6.)
- Metallic thread - Krienik #12 or similar. Note: you might need a little more than one 10M spool.
- Perle 5 in 3 colors or 3 sets of colors. The photo above shows a sample with only 3 colors on the bottom right. The sample in the upper right shows 3 color families with 3 shades of each color.

Bring your needles, scissors, tape measure, thimble, calculator, eyeglasses, etc.

Free Bonus! "Hands on" ball wrapping clinic after class.

Plan to stay and practice your wrapping technique with demonstration and helpful tips from Robin. Bring your own Styrofoam ball and 3 cones of serger thread in any color you like. Learn how to start, finish and add a noisemaker.
